

dear reality,

## Dear Reality,

is a 3D Audio technology software company and has grown considerably through a strong agile practice. Founded in 2014 and based in Düsseldorf, we are committed to deliver high-quality, cutting-edge 3D audio technology, software tools and VR & AR experiences. Our dearVR technology (please see [www.dearvr.com](http://www.dearvr.com)) is already available for Unity and as a VST/AAX/AU plugin for Digital Audio Workstations.

We are starting 2018 by expanding our 3D audio technology development through cooperation with Sennheiser Pro Audio.

In order to continue delivering highly qualitative and innovative mixing workflows & tools, we are looking for a

## General Programmer (f/m)

This position will be full-time and located at Dear Reality, Düsseldorf (Germany).

As a General Programmer you will develop systems for a wide-range of 3D audio technologies facilitating pro audio, gaming, VR & AR productions. You will also design, implement, and ensure the proper functioning of new software tools.

### Your tasks:

- Develop 3D Audio technology in collaboration with domain experts, technical artists and other programmers
- Debug and fix issues in dearVR powered products as they arise
- Re-factoring of our proprietary engine to make it ready for major releases
- Document the work to enable artists and programmer to understand how our systems work

### Your qualification:

- 3+ years of programming experience across audio, game engine and/or tools
- Excellent C++ programming skills
- Good knowledge of the C# language
- Very good knowledge of advanced mathematics (3D linear algebra...)
- Highly developed communication skills
- Knowledge how to work with Unity game engine.
- Self-motivation, good communication skills
- Proactive and team orientated personality
- Familiar with pair programming

# dear reality,

## **Additional Information**
